Personal Safety

If you are faced with an emergency, dial 999. Hertfordshire Constabulary has specially trained hate crime officers covering the whole county. These are dedicated officers who offer people who have experienced a hate crime help, support and advice.

Alternatively hate crime can also be reported online through the True Vision website which all police forces in England, Northern Ireland and Wales are signed up to. The online report will then be forwarded to the relevant local police force. People may not always feel comfortable with talking directly to the police. Online reporting allows people to report a hate crime via a system which will then be dealt with by dedicated hate crime officers.

True Vision Website www.report-it.org.uk

Lesbian and Gay Liaison Officers (LAGLOs)

Top tips for your personal safety...

Keep company - but if you must walk alone:

Be aware of **danger spots**, like wasteland, dark alleys, poorly lit areas etc.

Be aware of **what's around you!** Avoid hoods, earphones or using your phone

Keep in contact - Tell someone where you are and what time you expect to return

Never accept a lift with a stranger or someone you don't know very well

Be aware: **alcohol and drugs** impair your ability to keep yourself safe

Domestic Abuse

Domestic abuse affects every corner of society regardless of gender, class, age, race, religion, disability, sexual orientation or lifestyle.

Domestic abuse rarely involves a 'one-off' incident. It is more usually a pattern of coercive and controlling behaviour by one person (or group) over another. Domestic abuse will often escalate from something seemingly small such as name calling or threats, to incidents of physical or sexual abuse, and can begin at any stage of a relationship, sometimes continuing after a relationship has ended.

Domestic Abuse is defined as 'any incident of threatening behaviour, violence or abuse (psychological, physical, sexual, financial or emotional) between adults (and young people) who are or have been intimate partners or family members?'

Myth

Domestic abuse only occurs between a husband and wife

Truth

Domestic abuse occurs between intimate partners in a relationship – whether married or not. This includes heterosexual, same sex, bisexual, or transgender relationships, civil partnerships, marriages and also between family members.

Safer Places

East Herts and Broxbourne, have specialist workers who work with the LGBT*Q community around Domestic Violence.

They also have refuges that can accommodate members of the LGBT*Q community (women only, but case by case particularly in trans* circumstances)
